

## INTERESTED IN HELPING US FIND OUT HOW THE BRAIN WORKS?

We are currently recruiting  
neurodiverse people of all  
genders, ages, and  
ethnicities!

The Brain and Behavior  
Across Development (B-  
BAD) Study will help us  
understand how brain  
development supports  
and/or influences behavior  
across a person's lifespan

The visit takes about 1-2  
hours

Participants will wear a wet  
head cap to record brain  
waves, perform tasks, &  
answer surveys and  
questionnaires

Parents/caregivers will  
answer surveys &  
questionnaires too!

Earn \$50 and/or  
a toy from our  
prize bin!

Scan our code  
for more  
information!

Contact us to  
sign up!
